Saplı Taşlar

Yaklaşık çeşitli ölçü ve kum cinsinde 2500 standart üretim yapılmaktadır. Saplı taşlar demir, çelik, döküm, cam, mermer gibi malzemelerin taşlanması için kullanılır. Üçer Zimpara'da özel ölçü ve kalitelere göre saplı taş imalatı yapılır. Standart üretimin yanı sıra özel olarak 2.35, 3, 4, 5, 6, 8, 10 Å mm sap ölçülerinde her kalitede üretim yapılmaktadır.

Mounted Points

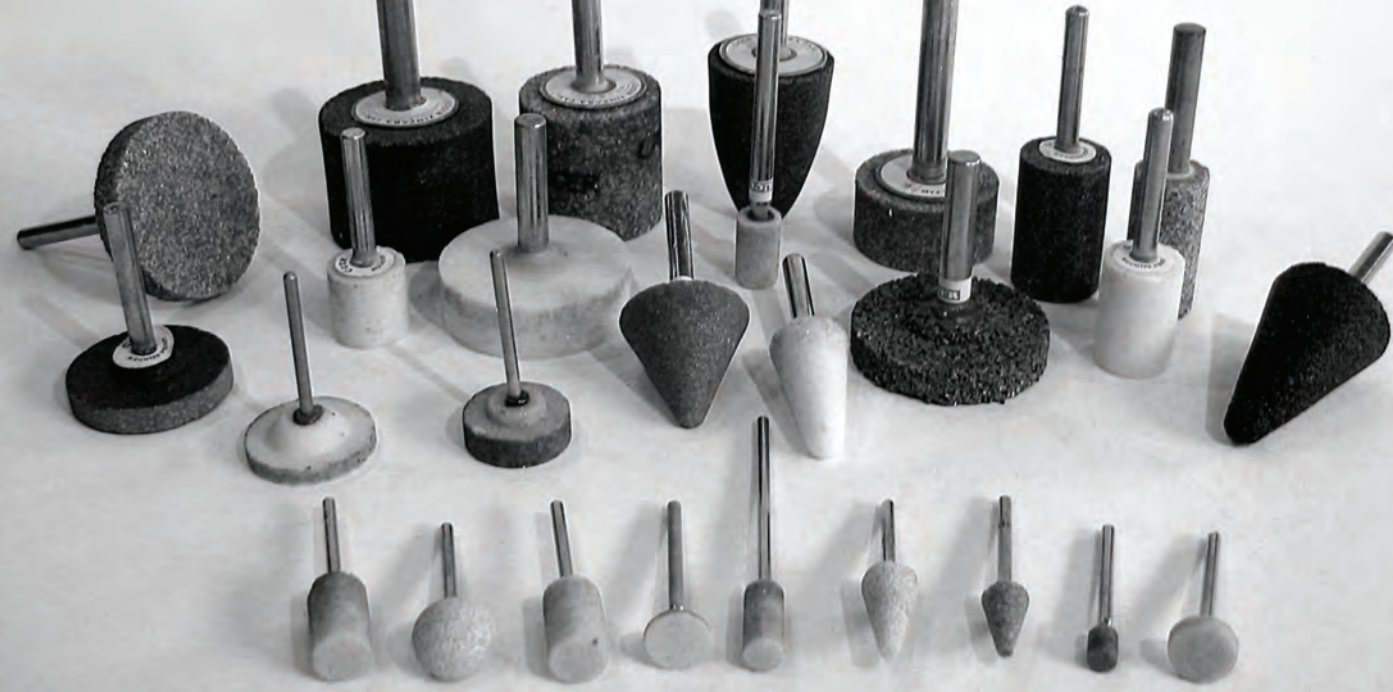

Approximately 2500 varieties of standard products of various sizes and grit types are manufactured. Mounted points are used for grinding materials such as iron, steel, cast iron, glass, marble, etc. At Üçer, the mounted points are manufactured in special sizes and grades. In addition to standard production, the mounted points can also be custom-made in shaft sizes of 2.35, 3, 4, 5, 6, 8 and 10 mm according to customers' specific requirements.

Schleifstifte

Etwa 2500 Arten von Kies in unterschiedlichen Größen und Typen werden hergestellt. Schleifstifte werden für Schleifwerkzeuge aus Eisen, Stahl, Abguss, Glas, Marmor usw. gebraucht. Üçer Schleifscheibe GmbH stellt die Schleifstifte in speziellen Größen und Qualitäten her. Außer der Standardherstellung werden die Schleifstifte speziell in Griffgrößen von 2.35, 3, 4, 5, 6, 8, 10 Å mm und in jeder Art der Qualität produziert.
